Guidelines for purchases from RSWC 3014:

RSWC 3014, the NASPO Server_Storage contract, is based on discount from manufacturer (contract holder) catalog negotiated by the lead state of Minnesota. Each manufacturer has determined specific partners/resellers (listed on the PA and on these usage instructions) that are to be utilized when requesting quotes and placing orders. The catalogs list many products that are not standards in the State's technology architecture. **Please refer to the project flow chart below for the detailed project development and/or ordering process at the beginning of the procurement (Executive Branch Only).**

There are exceptions to the restrictions. The following provides guidelines for handling purchases of restricted products.

1. The restrictions apply to Tennessee Executive Branch agencies only. Judicial and Legislative organizations may purchase without restriction or pre-approval. Non-State entities such as local governments may also purchase without restriction or pre-approval.
2. Authorization to purchase restricted products may be requested through the existing IT-ABC standards exception process. The process and request form are available on the STS Intranet website at:
<https://teamtn.gov/sts/article/sts-planning-services-waiver-exception-process>
3. All orders must include Cisco Master Contract Number: MNWNC-105 and Edison Contract #50634.
